GENERAL DESCRIPTION

The Greenline 33 is perfect for sea enthusiasts for whom ecology and low consumption are important. The diesel engine consumes very little fuel and if you want to enter the bay without making noise you can select the electric motor, which guarantees silence and the pleasure of sailing.

The large aft window that opens easily makes for a single floor plan that allows for an open space area all the way down to the folding swim platform.

Large spaces in just a few metres.

Used Greenline 33 Hybrid. Layout 1 cabin and 1 bathroom.

The data in this sheet are not to be considered contractual.

Greenline 33 Hybrid
